Additional Information
- **Web Browser**: Use the latest versions of the following web browsers: Chrome, Safari, Microsoft Edge, and Firefox. If you encounter difficulties, determine if your browser needs upgrading or use a different browser.
- **Testing Positive**: If you have had a positive COVID-19 test in the past 90 days, you are exempt from testing and should not schedule a screening test for 90 days. You will be notified when it is time to re-enroll. Continue to use PennOpen Pass every day in case new symptoms or exposures arise during this 90-day period.

Before Getting a Screening Test
- Refrain from eating, drinking, tooth brushing, mouth washing, gum chewing, vaping, and tobacco use for at least 30 minutes before submitting your saliva sample at the test location to ensure your sample is not contaminated.
- Plan to be “hands-free” during the testing process. All coffee, water bottles, etc. must be discarded or put away prior to testing. Storage of personal possessions will not be available. At testing sites, enter through one location and exit at another location.
- Bring your current PennCard.
- Complete your daily symptom check on PennOpen Pass before leaving your residence. Only leave if you have a Green Pass. Show your Green Pass at the testing site.
- While lining up outside the testing location, wear a face covering and practice physical distancing.
